**Subject:** Cancellation of procurement thru bidding and resort to Emergency Procurement as allowed under Section 53.2 of the 2016 Revised IRR of RA 9184

**Date :** September 10, 2021

---

Please cause the cancellation of the posted procurement for the **REHABILITATION OF 30HP DEEPWELL** in the Medium Security Compound.

The same appears to have inadvertently posted as it should have been procured thru Negotiation being emergency in nature as certified by the end-user because time is of the essence in this particular project where immediate action is necessary to prevent further damage to our water pump system, thus, restore vital service thru guaranteed continuous water supply for our PDL.

So having been justified to be procured by resorting to alternative mode of procurement, it is but proper to cancel the procurement thru bidding and immediately the commence the negotiation proceeding to immediately address the future problem brought about by several complaint being lodged to the 8888 or the Citizen's Hotline and Complaints center under the Office of the President.

Your immediate action on this matter will be highly appreciated.
