II. CALL TO ORDER

The meeting was called to order and presided by the BAC Chairman CTCSupt. Ma. Lourdes M. Razon, MD at 3:27 in the afternoon.

III. HIGHLIGHTS OF THE PRE-BID CONFERENCE

Muyam

1 Mr. Catindig informed the prospective bidders that he will only discuss the Technical Specifications for
2 the project and not the eligibility, technical and financial components since the same bidders attended the
3 pre-bid of medicine that was conducted earlier.

4 As to the query of Prospective Bidder if there is color coding for the submission of documents intended
5 for the project, Mr. Catindig stated that there is no requirement for color coding mandated in 9184.

6 As to the query of the prospective bidder if it could be possible that the Technical Specification for CR
7 System and Motion Mobile X-Ray System would be changed into Generic type since the Technical
8 Specification of the two focused only to one specific brand, Mr. Catindig stated that they can put into
9 writing all their queries so the BAC can address them accordingly.

10 The Prospective Bidder stated that their company is reliable since they are already thirteen years in the
11 industry and that they have their set of engineers in-charge for the maintenance of their equipment.

12 Mr. Catindig suggested that Certificate of Availability of Parts and Services and the list of Service
13 Centers within Metro Manila should be included on the documents for post-qualification.

14 The bidder suggested to specify the kilowatt is needed in the machine or the control panel for the
15 computer. As to the digitalization of X-Ray Machine, one of the bidder stated that there are two kinds of
16 X-ray Machine; the CR (Computerized Radiography) System and the DR (Direct Radiography) System.
17 He suggested that the end user will choose the DR System which is a low maintenance the end user may
18 aim for a better digitalization of the said system.

19 CCSupt Richard Schwarzkopf emphasized the purpose of the Pre-Bid Conference is to present the
20 Bidding Documents where the bidder would procure and acknowledge the suggestion on the technical
21 specifications and not to discuss or introduced about their products. Mr. Catindig added that the BAC
22 together with the End-User will amend the Technical Specifications and the bidders will be informed thru
23 the Supplemental Bid Bulletin.

24 Dr. Razon stated that the BAC will exert its utmost effort in order to push through with the opening of bid
25 scheduled on the 17th this month. She added that bidders will be informed thru supplemental bid bulletin.
